SUMMARY

Passionate Full Stack Developer with practical knowledge of React.js, Node.js, Express.js, MySQL, MongoDB, and modern front-end development. Experienced in building responsive user interfaces, integrating RESTful APIs, working on dashboard layouts, booking workflows, e-commerce flows, and clean component-based development. Actively leverage AI tools (ChatGPT, Gemini, Cursor AI, Code Copilot) for code optimization, debugging, and rapid problem-solving. Focused on writing maintainable code and contributing effectively to real-world development projects.

PROJECTS

Smart RoRo Ferry Reservation & Information System

College Project | 2026

Full-stack ferry reservation platform focused on booking management and role-based access.

- Built user, agent, and admin modules with secure authentication and protected workflows.
- Developed ferry schedule management, seat availability, vehicle booking, and booking flow screens.
- Integrated REST APIs with reusable React components and responsive Tailwind CSS layouts.

React.js Tailwind CSS REST APIs Authentication

PR Mart - Best Deals, Better Shopping

E-commerce Project | 2026

Responsive e-commerce website designed for a clean shopping experience.

- Created product listing, product detail, category browsing, and cart flow screens.
- Focused on smooth navigation, reusable components, mobile responsiveness, and clean UI structure.
- Used AI tools to plan UI sections, improve product flow, debug issues, and refine code quality.

React.js Tailwind CSS Node.js E-commerce Responsive Design

Personal Portfolio Website

Self Project | 2025

Personal website to present projects, skills, achievements, and contact information.

- Added project showcase sections, skill highlights, interactive UI sections, and a clean contact area.
- Improved personal branding with mobile-friendly layouts and polished visual hierarchy.
