SUMMARY

Motivated fresher with practical knowledge of React.js, Node.js, Express.js, MySQL, MongoDB, and modern front-end development. Built responsive user interfaces, dashboard layouts, booking workflows, e-commerce flows, and component-based solutions through college and personal projects. Comfortable working with REST APIs, state management, and responsive design to deliver polished user experiences. Actively use AI tools (ChatGPT, Gemini, Cursor AI, Code Copilot) for learning, debugging, and rapid problem-solving. Focused on writing maintainable code, collaborating with teams, and growing in a React-based development role.

PROJECTS

Smart RoRo Ferry Reservation & Information System

College Project | 2026

Full-stack ferry reservation platform focused on booking management and role-based access.

- Built user, agent, and admin modules with secure authentication and protected workflows.
- Developed ferry schedule management, seat availability, vehicle booking, and booking flow screens.
- Integrated REST APIs with reusable React components and responsive Tailwind CSS layouts.

PR Mart - Best Deals, Better Shopping

E-commerce Project | 2026

Responsive e-commerce website designed for a clean shopping experience.

- Created product listing, product detail, category browsing, and cart flow screens.
- Focused on smooth navigation, reusable components, mobile responsiveness, and clean UI structure.
- Used AI tools to plan UI sections, improve product flow, debug issues, and refine code quality.

Tailwind CSS

Node.js

E-commerce

Responsive Design

Personal Portfolio Website

Self Project | 2025

Personal website to present projects, skills, achievements, and contact information.

- Added project showcase sections, skill highlights, interactive UI sections, and a clean contact area.
- Improved personal branding with mobile-friendly layouts and polished visual hierarchy.
