Skills

Education

Bechlор of Computer Applications (Sem 6) — Sutex Bank College of Computer Application & Scienece
Expected: 2023 - 2025

Summary

Enthusiastic and detail-oriented React.js Developer with hands-on experience in building dynamic and scalable web applications using the MERN stack (MongoDB, Express, React, Node.js). Skilled in crafting responsive UIs, integrating RESTful APIs, and optimizing front-end performance. Passionate about writing clean, reusable code and delivering seamless user experiences. Always eager to learn new technologies and contribute effectively to full-stack projects from concept to deployment.

Experience

Personal Portfolio Website (React.js)

Self Project · 2025
Designed and developed a responsive personal portfolio website using **React.js** and **CSS**. Showcases full-stack projects, skills, and achievements with smooth animations and interactive sections.

Property Management System (React.js)

Academic Project · 2024
Developed a responsive property management web application using **React.js**, **Node.js**, and **MongoDB**. Implemented user authentication, property listing with “Add to Cart” functionality, and integrated RESTful APIs for data management.

Pharmacy Management System (PHP)

College Project · 2024
Created a full-featured pharmacy management platform using **PHP** and **MySQL**. Built modules for stock management, billing, and customer records with an admin panel for easy monitoring and updates.
